INTERNATIONAL DATA SPACES ASSOCIATION

Trust in Data Spaces

IDSA at Hannover Fair 2023:

Open roundtable & press conference
Accelerating Industrial Innovation
with Data Spaces

April 18, 2023 | 2pm to 3:30pm
Room 12 | Hannover Fair Convention Center

Our **booth** provides an overview of all data space-related exhibits & events at the fair as well as an IDS deep dive. Members and stakeholders can have small meetings & presentations:

April 17 to 21, 2023
Booth A08 | Hall 16

HANNOVER MESSE

INTERNATIONAL DATA SPACES ASSOCIATION

Accelerating Industrial Innovation with Data Spaces

Join us on **April 18, 2pm in Hannover Messe Convention Center** for an exciting roundtable and press conference! You'll hear about one of the most important IDSA topics: trusted data sharing through certification to **accelerate industrial innovation with data spaces**.

At Hannover Messe 2022, we initiated the certification scheme. Now we want to update you on the progress we have made since. Our certification candidates will share their journey and discuss the need of certification for interoperable data spaces with industry leaders.

Trust is the most crucial factor in data sharing. In the last 12 months we have seen tremendous progress with the IDS Certification, including awarding six pioneers, significant stakeholder commitments, and the first connector being certified as we speak at an independent evaluation facility. However, the process of establishing trust is ongoing, and more work needs to be done.

We invite you to be part of this important conversation on the future of industrial innovation through data spaces. Don't miss the opportunity to connect with industry leaders and experts.

Agenda [April 18, 2pm to 3:30pm, Room 12, Convention Center]

Welcome & moderation .... Lars Nagel, IDSA

Data spaces – innovation driver for industry .... Boris Otto, Fraunhofer ISST & IDSA Board

Industrial data spaces need certification as trust enabler .... Andreas Teuscher, SICK

How IDS Certification works, how it ensures trust in data spaces .... Begoña Laibarra, SQS, IDS evaluation facility

IDS & connector certification – why it's important to make Catena-X & other data spaces successful... Sven Löffler, T-Systems & Catena-X

Telekom's industry-ready solutions on the way to get certified .... Chris Langdon, T-Systems

More vital assets for data spaces: IDSA Rulebook, Dataspace Protocol, standardization .... Sonia Jimenez, Sebastian Steinbuss, IDSA

Data spaces as innovation drivers for industry .... Oscar Lazaro, Innovalia

Fraunhofer **innovalia ASSOCIATION** **SICK Sensor Intelligence.** **SQS** **T··**
