

Join the data spaces pioneers!

Drive the global digital future - benefit together

The awareness of data spaces and their importance has grown significantly. We have proven that our concepts are needed and that they work. Now, we're turning ideas into action!

IDS is on its way to a global standard, making a substantial impact on businesses, industries, and governments. This achievement owes much to our members—the trailblazers of digital innovations shaping the future of data spaces.

Eager to join? Explore many ways to actively engage with the International Data Spaces Association. Together, let's make data spaces the ultimate destination on the digital journey!

Sincerely,
Lars Nagel
CEO, IDSA

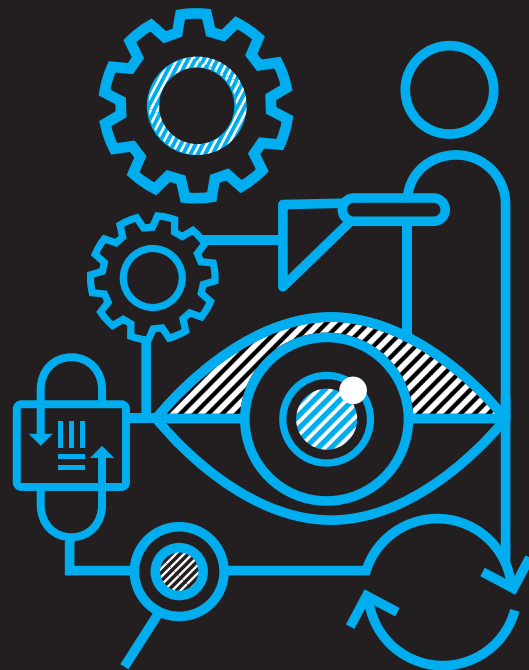

Our mission and vision

IDSa is an alliance of more than 150 members that share the vision of a world in which every company and every person keeps full control over their data treasures.

We believe in a data economy in which you do not rely on a solution that is owned by one big player. This is why we create the standards for data spaces, which grant data sovereignty to all participants to share data without regret.

Our mission is to advance the IDS standard and drive innovation, awareness, and global adoption of data spaces thereby re-shaping how data is shared worldwide.

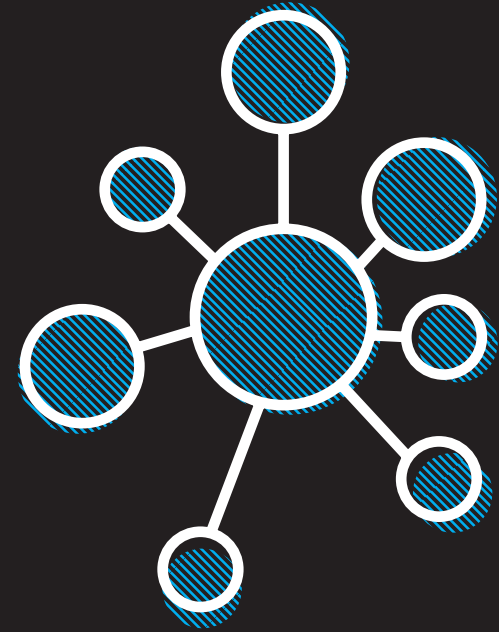

Pioneer the future

- **Access to top-tier experts:**
Connect with and learn from the leading experts in the data sharing community.
- **Engage in decision-making:**
Play a vital role in working groups, actively contributing to technical blueprints, governance frameworks, and the standardization process.
- **Early bird information:**
Accelerate your data spaces journey through early inner circle information and insights.
- **Exclusive member events:**
Attend member-only events designed for networking and in-depth knowledge exchange.

- **Forge business connections:**
Build valuable business connections within the dynamic data spaces ecosystem. Access a global network and discover collaboration opportunities.
- **Take a leading role:**
Elevate your status as a key partner, positioned at the forefront of pioneers as a hub facilitator, competence center, or implementation partner.
- **Global visibility with marketing support:**
Amplify your organization's presence, receive individual marketing support and the opportunity to pitch on international stages.
